## Objective

I'd like to work in a development position with a team of like-minded and experienced developers that will allow me to improve my development expertise and creatively solve challenging problems.

## Work Experience

### Web Developer

2007 – Current      **Chevron**      Houston, TX

- Created and implemented a scalable and modular onboarding/offboarding application using XHTML, CSS, ASP Classic, MS SQL Server and AJAX.
- Developed a sophisticated eLearning template with advanced quiz functionality, progress tracking and SCORM-compliant LMS support using XHTML, CSS, ASP Classic, MS SQL Server, JQuery and AJAX. Approved by Chevron Brand as a preferred template that is compliant with the new IBS.
- Performed website maintenance and creation for all major areas of IDC Webteam business (ETC, GUG, ITC, and Other), as well as playing a key role in the successful launch of large websites such as Intellectual Property Rights (IPR), Corporate Governance, Chevron Global Power Company (CGP), Upstream and Gas Resources, and Financial Shared Services (FSS).
- Create and maintain a variety of complex computer-based training modules and websites using Adobe Captivate and the Articulate suite of tools.

### Owner / CEO

2001 – Current      **Hybrid Fusion Design**      Spring, TX

- Develop and maintain client portfolios, websites, and e-commerce applications.
- Designed and color-proof all documents and brochures before sending through a spot color printing process.
- Manage financial, logistic, and quality considerations on large scale corporate projects.

### Web Content Developer

2006 - 2007      **InternetREIT, Inc.**      Houston, TX

- Developed and maintained content for Bands.com within an MVC framework using PHP and XHTML.
- Created custom CSS and XHTML templates for a domain parking system.
- Developed custom web applications for use within large community-based websites.

### **Webmaster / Developer**

2004 – 2006                      **Oracle Solutions**                      Spring, TX

- Managed all web applications and backend development in XHTML, CSS, XML, PHP and MySQL.
- Developed custom applications that enable content management across multiple systems.
- Integrated PHP and XML systems with an Oracle Database to create custom applications for upgrading legacy systems.

### **Graphic Designer / Web-Developer**

2002 – 2005                      **InterNext-Group, LLC**                      Houston, TX

- Designed layout and graphics for multiple website pages.
- Developed website structure using HTML, PHP, and CSS.
- Designed most graphics for the CMWebCenter Portal, used by clients to access Oracle Change Management applications.
- Developed the portal using XHTML, CSS, PHP, and MySQL. Features included: company and user management, company messaging system, and custom mod\_rewrites for Apache Webserver.

### **Freelance Contract Worker**

2005                                      **Hanover Compressor**                      Houston, TX

- Designed front-end for accounting, employee and other various management web-applications.
- Developed custom PHP and MySQL back-end for accounting, employee and other various management web-applications.
- Utilized AJAX technologies to create a custom dynamic interface for employment, accounting and other various online forms.

## **Education**

**North Harris College**                                      Houston, Texas
